

THOMAS ELLIOTT FERTILISERS SAFETY INFORMATION SHEET

Date of Issue: 01/01/2004

Revision: 20/01/2012

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND COMPANY/UNDERTAKING

Name of Product: PELLETED POULTRY MANURE

Use of the Substance/Preparation: Fertiliser

Manufacturer/Distributor: Thomas Elliott Limited
Selby Place
Stanley Industrial Estate
Skelmersdale
Lancashire WN8 8EF
Tel: +44 (0) 1522 811981 Fax: +44 (0) 1522 810238

Emergency Contact: Tel: +44 (0) 1522 811981 (Office Hours)

2. HAZARDS IDENTIFICATION

Classification: Not classified as dangerous.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Formulation Type: Extruded pellet
Hazardous Ingredients: Contains no hazardous ingredients

4. FIRST AID MEASURES

Skin Contact: May cause mild irritation in contact with cut or broken skin. Wash skin with water and launder clothing before re-use.

Eye Contact: May cause mild irritation typical of any dusty or gritty material. If contact with eyes occurs flush eyes with water; remove contact lenses, if present, after the first 5 minutes, then continue flushing eyes for at least 15 minutes.

Ingestion: Pelleted poultry manure is considered to be essentially non-toxic. No specific effects and/or symptoms have been reported or known. Wash out mouth with water.

Inhalation: Remove to fresh air. If irritation develops and persists seek medical attention.

General Advice: In case of accident or if you feel unwell seek medical advice immediately (show the label where possible).

5. FIRE FIGHTING MEASURES

Extinguishing Media: Fires may be extinguished with dry powder, foam or carbon dioxide. Contain contaminated run-off.

Hazardous Combustion Products: Burning may produce nitrogen oxides and carbon monoxide.

Special Protective Equipment: Wear protective clothing and use self-contained breathing apparatus.

Additional Information: Contain run-off to prevent entry into water or drainage systems.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Wash hands and exposed skin after handling.

Environmental Precautions: No known adverse environmental effects.

Spillages: Scoop up spillages and place into containers for disposal. Avoid creating dust. Wash spillage area with water.

Date of Issue: 01/01/2004

Revision: 20/01/2012

7. HANDLING & STORAGE

Handling: Use good personal hygiene. Do not consume or store food in the work area. Wash hands and exposed skin before eating, drinking or smoking and after work.

Storage: Store in a cool, dry, well-ventilated place in the original container.

8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

Exposure Guidelines: Dust (Total Inhalable Dust) 10 mg/m³ (OES)
Dust (Respirable Dust) 10 mg/m³ (OES)

Engineering Controls: Good general ventilation should be sufficient for most conditions.

Respiratory Protection: For most conditions, no respiratory protection should be needed. Use of a dust mask is recommended.

Hand/Skin Protection: For brief contact, no precautions other than clean body-covering clothing and impervious gloves should be needed. For emergency conditions: use protective clothing impervious to this material. Selection of specific items will depend on operation.

Eye/Face Protection: Use chemical goggles or safety glasses.

9. PHYSICAL & CHEMICAL PROPERTIES

Appearance	brownish pellets
Odour	faint organic odour
pH	solid
Boiling point	not applicable
Melting point	decomposes at 200-250 deg C
Flash point	no data
Flammability	no data
Autoflammability	no data
Explosivity	no data
Oxidising properties	no data
Vapour pressure	not applicable
Relative density	500 kg/cu m
Solubility	Insoluble
Other data	none

10. STABILITY & REACTIVITY

Stability: Stable under normal conditions.

Conditions to Avoid: Moisture and high humidity.

Materials to Avoid: None

Hazardous Decomposition Products: None under normal conditions of storage and use.

11. TOXICOLOGICAL INFORMATION

Based on data for components:

Inhalation: High concentrations of dust may cause mild irritation of the mucous membranes.

Skin & Eye Contact: Irritation to skin or eyes is likely to be mild.

Ingestion: Ingestion of small amounts is unlikely to cause any adverse effects.

THOMAS ELLIOTT FERTILISERS SAFETY INFORMATION SHEET

Date of Issue: 01/01/2004

Revision: 20/01/2012

12. ECOLOGICAL INFORMATION

Persistence and Degradability: Product forms a suspension in water.
Bioaccumulation: product is readily biodegradable and not expected to bio-accumulate.
Ecotoxicity: no data

13. DISPOSAL CONSIDERATIONS

Packaging/Unused Product: Do not contaminate ponds, waterways or ditches with material.
Unused product must be disposed of safely and in accordance with applicable regulations. The preferred options are to send to licensed reclaimer or to permitted incinerators.

14. TRANSPORT INFORMATION

Transport/Further Information: Product is not classified for any mode of transportation.

15. REGULATORY INFORMATION

Hazard Symbol: None. Not classified as hazardous
Risk Phrases: None.
Safety Phrases: None

16. OTHER INFORMATION

The information contained in this sheet is based on the best available information.

Prepared in accordance with Directive 1999/45/EC and subsequent amendments modified by Directive 2006/08/EC, taking account Directive 67/548/EC (Dangerous substances) modified by Directive 2004/73/EC and Regulation 1907/2006/EC (REACH).

This organic fertiliser/soil improver is produced in accordance with Regulation (EC) No 1069/2009 laying down health rules for animal by products not intended for human consumption and The Animal By-Products (Enforcement) (England) Regulations 2011.

As such this organic fertiliser/soil improver is not intended for use for use in animal/human feed. Organic fertilisers or soil improvers: no grazing of farmed animals or use of crops as herbage during at least 21 days following application, in the case of pigs during at least 2 months following application.

A local risk assessment should be conducted to ensure the suitability for use where human food or animal feedingstuffs could become contaminated.
